PREMIUM SELECTION

EXTRA VIRGIN OLIVE OIL

EARLY HARVEST - COLD PRESSED

BIOLIO

GLASS BOTTLE

250 ml / 8,45 fl. oz.

500 ml / 16,9 fl. oz.

Free Fatty Acidity : max < 0,5

For Early Harvest Extra Virgin Olive Oil, it is harvested in October, that is, when the olives are still green. Unripe olives are passed through all the stages of obtaining extra virgin olive oil.

In other words, it is washed, cleaned, crushed, olive paste is kneaded, and after the filtering stage, quality control tests are carried out and packaged.

Early Harvest Olive Oil has the aromatic flavor of extra virgin olive oil. It can be used in both hot and cold dishes.

It is especially used in cold dishes such as breakfast and salad, but it can be preferred in oven, stove or grill recipes to benefit from the intense aroma of olives.

Peroxide Value : ≤ 20 meq
Total Biophenols : 0 - 400 ppm
Fruitiness : 0 - 5

ALEX OLIO

Extra Virgin Olive Oil is the oil obtained from the fruit of the olive tree solely by mechanical or other physical mean under conditions, including thermal conditions, that do not lead to alterations in the oil, and which have not undergone any treatment other than washing, decantation, centrifugation, and filtration.

No additives are permitted. This Extra Virgin Olive Oil meets IOOC and USDA standards.

Extra Virgin is a high-quality grade of olive oil, commonly used by food manufacturers and restaurant chefs. It is ideal for every day use in dressings and salads, for cooking, or simply enjoyed with a warm, fresh-baked baguette.

5000 ml / 169 fl. oz.

Free Fatty Acidity : max < 1,0

Pure olive oil is a blend of refined olive oil and a small amount of extra-virgin or virgin olive oil.

- Ideal for those who prefer an olive oil that has a lighter taste than extra virgin olive oil. Sauté, fry, or bake with this versatile oil
- Refined for the best taste, colour and freshness. The subtle olive flavour and light body makes 100 percent pure olive oil an ideal choice for marinades, sauces, soups, and vinaigrettes
- Its high smoke point makes it great for high-heat frying and baking.
- Pure olive oil boasts the same health benefits as extra virgin varieties, but with less olive flavour.

2000 ml / 67,6 fl. oz.
5000 ml / 169 fl. oz.

Free Fatty Acidity : max < 1,0

Pomace Oil is a type of oil that is refined from pomace of olive oil. Due to its refinement, Pomace Oil is considered to be pure with close to zero acidity.

This type of oil is best for frying purposes for it has a high smoke point of 240° Celsius.

Olive pomace oil also brings the additional benefit of Vitamin E for better immunity and tissue repair with Vitamin K for better bone density and health.

For Cooking: It is a light, neutral in taste and healthier option than other edible oils, and is stable at high temperatures.
